## Computime Joins ZigBee Alliance

Hong Kong, HK – May 06, 2007 – Computime, Ltd (HKEX : 320) (Computime), a leading electronic controls company, announced today that it has joined the Zigbee Alliance, as a Participant-level member.

Computime's ZigBee solutions will include low-cost ZigBee modules based off the Ember EM250 and EM260 chipsets. These modules will provide customers a simple and cost effective way to reduce their time to market for ZigBee-enabled products. Computime will also offer complete ZigBee-enabled solutions for the Home Control and AMI markets.

"Computime is committed to providing the most advanced technology solutions to our customers," said Bernard Auyang, CEO of Computime. "By joining the ZigBee Alliance, we are staying aligned with our goal of providing the most advanced technology solutions to our customers."

### About the ZigBee Alliance:

The ZigBee Alliance is an association of companies working together to enable reliable, cost-effective, low-power, wirelessly networked, monitoring and control products based on an open global standard. The goal of the ZigBee Alliance is to provide the consumer with ultimate flexibility, mobility, and ease of use by building wireless intelligence and capabilities into everyday devices.

### About Computime:

Founded in 1974, Computime is a global technology and manufacturing company that provides innovative automation and control solutions to their customers in the industrial, commercial and consumer markets. Headquartered in Hong Kong, Computime operates more than a dozen design, manufacturing and sales facilities in Asia, Europe and North America. Computime designs, manufactures and distributes products and systems with an objective to make people's lives safer, more productive and comfortable.
