COMPUTIME GROUP LIMITED (STOCK CODE: 320.HK)

**COOPERATION WITH WORLD CLASS ENGINEERING PARTNER
ESTABLISHMENT OF JOINT TECHNOLOGY CENTER IN NORTH AMERICA**

Computime Group Limited (“Computime” or the “Group”) (Stock Code: 320.HK), a vertically integrated global electronic controls specialist engaged in the design, manufacturing, and distribution of electronic controls and automation devices and solutions, is pleased to announce a comprehensive partnership with Attero Tech, LLC (“Attero Tech”), a technology and engineering design company, to establish a joint technology center in North America, based in Fort Wayne, Indiana. Building upon the well-defined infrastructure developed by Attero Tech to design and develop products for customers in the region, Computime will work closely with Attero Tech to expand its technological areas to better serve the diversified market segments covered by both companies.

Mr. Auyang Pak Hong, Bernard, CEO of Computime said, “In the pursuit of globalising our technology development and expanding our product commercialisation capabilities, Computime is pleased to establish a joint technology center with Attero Tech in North America. This provides an option for our partners and customers in North America to work directly with a world class engineering organisation located in Fort Wayne, Indiana. We believe that through continuously reinforcing our research and technology platform and forming strategic alliances with strong partners to foster synergistic advantages, the Group will consolidate its position as a leader in the control systems industry and bring maximum returns to our shareholders.”

Mr. Russel Sundholm, President of Attero Tech commented, “Attero Tech is very pleased to be Computime’s North American design partner and joint technology center. Computime is focused on technology leadership, and Attero Tech brings a wide variety of cutting edge design capability to the partnership. Attero Tech will work with Computime to develop technology platforms that bring the most current hardware, software, and design techniques together. These platforms will provide the basis for feature rich, high value end products. Attero Tech will also provide Computime’s North American customers with program management, design engineering, testing, and the assurance of a smooth transition into mass production. We believe that with the tightly coupled Computime/Attero Tech partnership, we can offer a unique combination of customer communication and responsiveness, and top flight design.”
