

Computime

# Who We Are

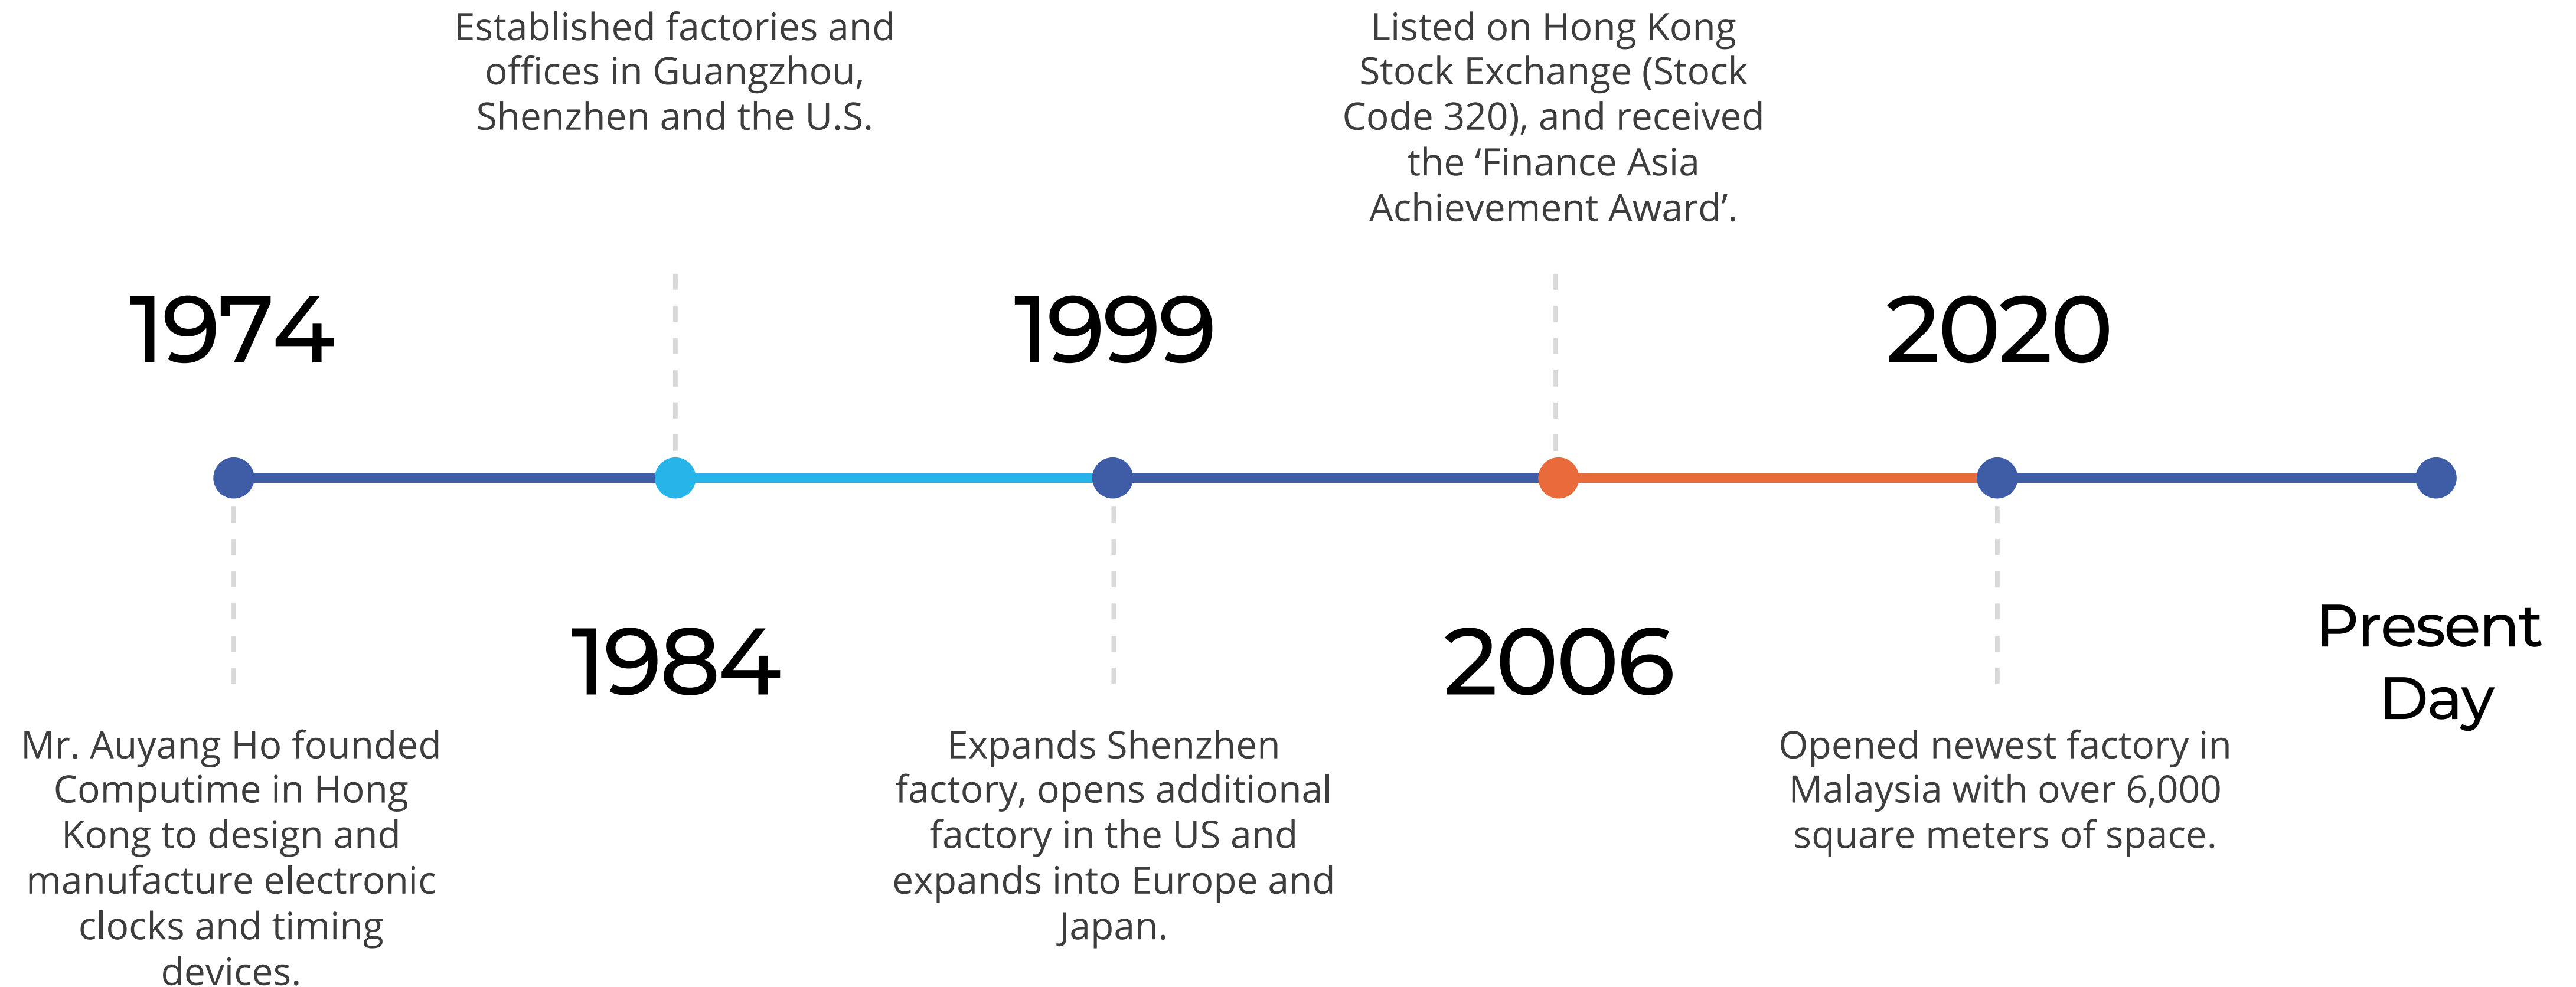

**COMPUTIME IS A TECHNOLOGY AND MANUFACTURING COMPANY THAT ENABLES AND ADVANCES SMART AND SUSTAINABLE LIVING FOR EVERYONE.**

We focus on AI and ML that promote connected homes and buildings, evolving robotic automation technologies, and innovating renewable energy and water saving technologies.

# Our History

# Why Computime

## Specialized R&D

With over 200+ engineers, Computime is a global specialist in design and engineering of smart controls.

## Global Manufacturing

We operate 5 manufacturing sites around the world with over 4,000 workers covering a wide range of manufacturing services.

## Experienced Management

Comprising of industry veterans across all areas of expertise, our leadership team is responsible for guiding our global expansion.

## World Class Quality

Our facilities are ISO9001, IATF16949, ISO13485 and ISO14000 certified. We utilize a Variation Reduction Initiative to eradicate defect and maximize first pass yield.

# Our Vision

To be a leading innovator and enabler of smart and sustainable living.

# Our Mission

To universalize smart and sustainable living through technologies, products, and manufacturing solutions.

# Our Values

## Customer Focus

Considers long-term relationships with external and internal customers

## Solution Driven

Carries out fact-finding and identifies the root causes for complex problems.

## Innovation

Thinks out-of-the-box when generating ideas and be open-minded to new ideas

## Collaboration

Breaks down silos; collaborates across teams/departments to achieve overall company goals

## Integrity

Decides and acts in accordance with ethical value and considers the community in all decisions and actions

# Our Businesses

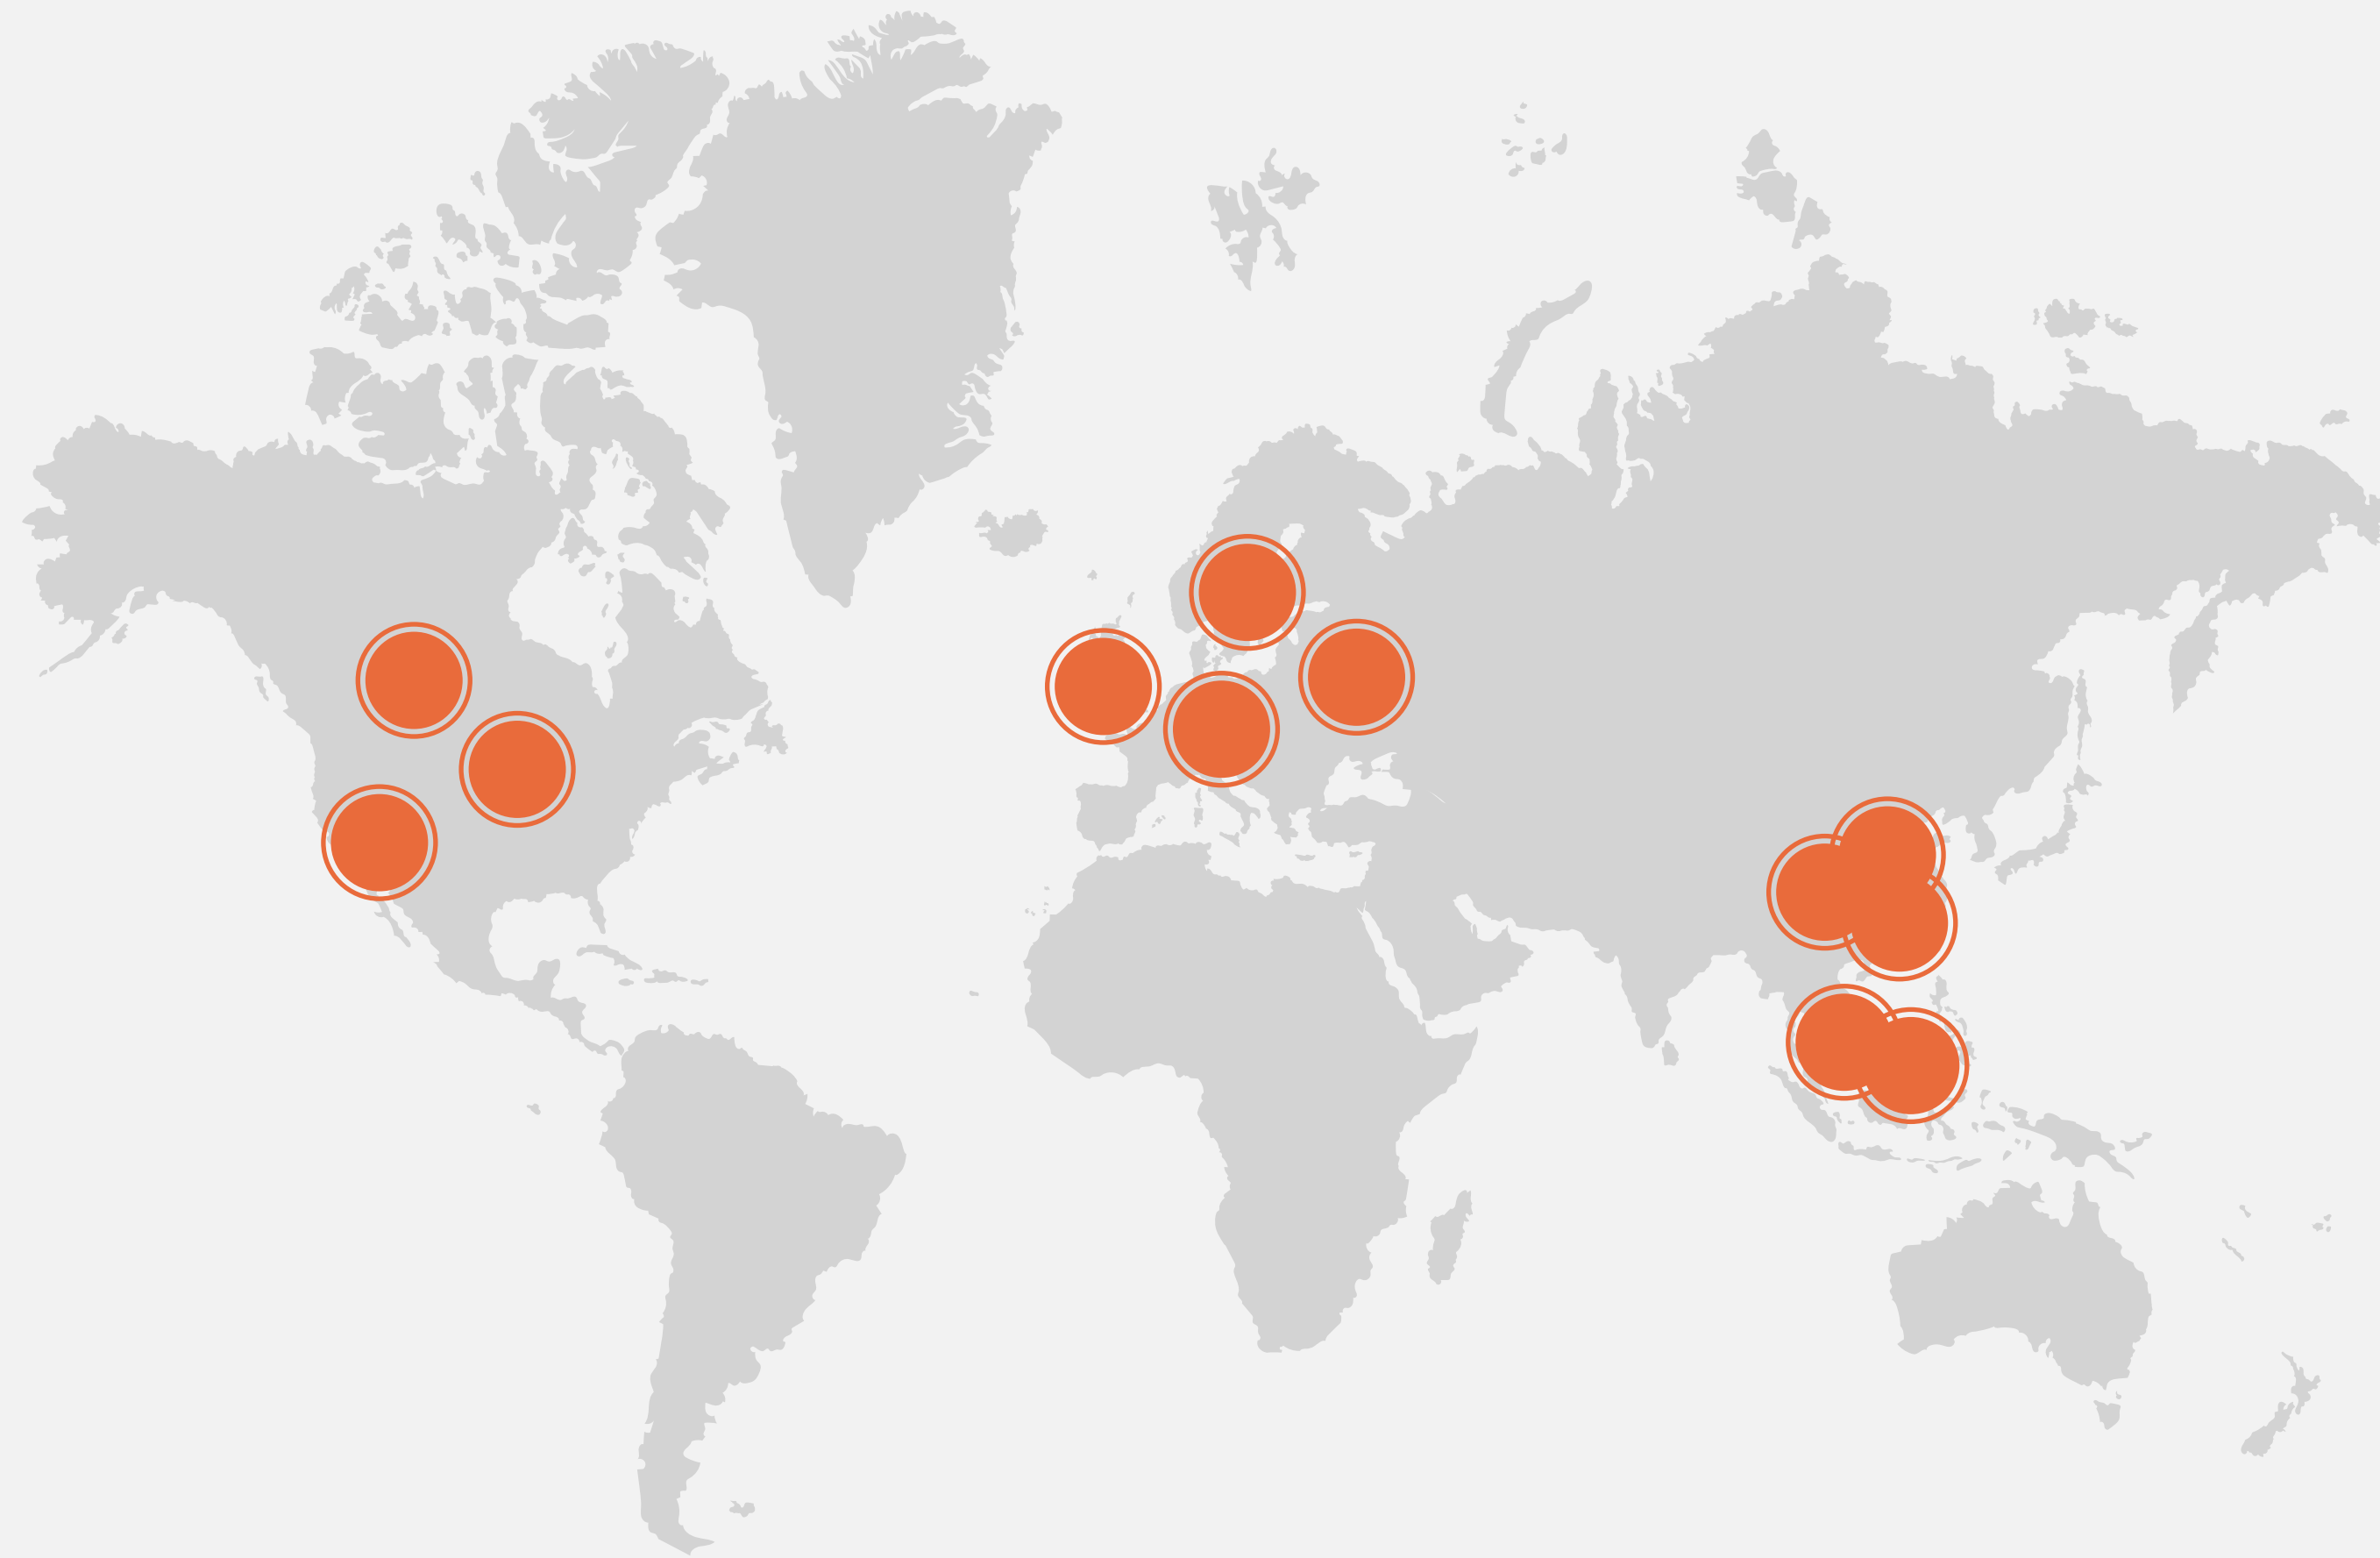

Established in 2004, Salus Controls is a B2B IoT Technology-based company focus on branded energy efficiency and environmental control products with operations in over eight countries.

Computime Control Solutions is a global technology and manufacturing company providing green and smart control products to customer around the world.

We aim to become a B2C global brand and product leader in the home and baby markets, providing stylish, innovative, and quality solutions directly to consumers through online and offline retail channels.

# CONTROL SOLUTIONS

# Focused Industries

## Bespoke Technology Solutions

We provide OEM and ODM services across various market segments, including:

- **Appliance Controls**
- **HVAC**
- **Home Controls**
- **Industrial and Medical**

Computime is a specialist in IoT technologies and wireless connectivity, in particular, low power sensors with optimized battery life.

# Engineering

## Built For You.

Computime has a heritage of product engineering works that started in 1974. Every year, we bring hundreds of new products into the market through the work of our 200 strong engineering team around the world.

Provide **platforms** in HVAC, lawn & gardening, and appliance ecosystems

Deliver **solutions** based on Computime's five core technologies

Offer design **expertise** that covers all engineering disciplines in our industry

# Centers of Excellence

Center	Segment	Technology	Skill Set
Hong Kong	HVAC Cloud	Heating Platform Cloud & Mobile App	RF & Gateway Design Cloud & IoT
China	Appliance Ignition Irrigation Consumer Cloud	Kitchen Appliance Flame Control Pump Control End-to-end Tuya	Embedded Design High Voltage Ignition Water Flow & Pump Tuya Integration
Romania	Testing Lab Appliance Field Application Engineering	Field Testing System Kitchen Appliance Design and FAE	HVAC System Appliance Design
USA	RF Field Application Engineering	RF System Design	RF Performance

# Manufacturing

## Globally Accredited

Our facilities are certified with numerous accreditations and regulatory compliances.

## Industrial Grade

Our team has extensive experience designing and manufacturing commercial and industrial grade electronics.

## Quality Assurance

Our quality is to achieve Total Customer Satisfaction through continuous improvement and prevention.

## Dedicated Teams

Comprising of industry veterans across all areas of expertise, our leadership team is responsible for guiding our global expansion.

# Manufacturing Footprint

Shenzhen, China

Guadalajara, Mexico

**FUTURE FOOTPRINT: EASTERN EUROPE**

The background of the entire image is a close-up, high-angle photograph of a blue printed circuit board (PCB). The board is densely packed with various electronic components, including integrated circuits, capacitors, and resistors. The image is overlaid with a semi-transparent blue filter. A white rectangular box is positioned on the left side of the image, containing the company name.

# SALUS CONTROLS

# About SALUS

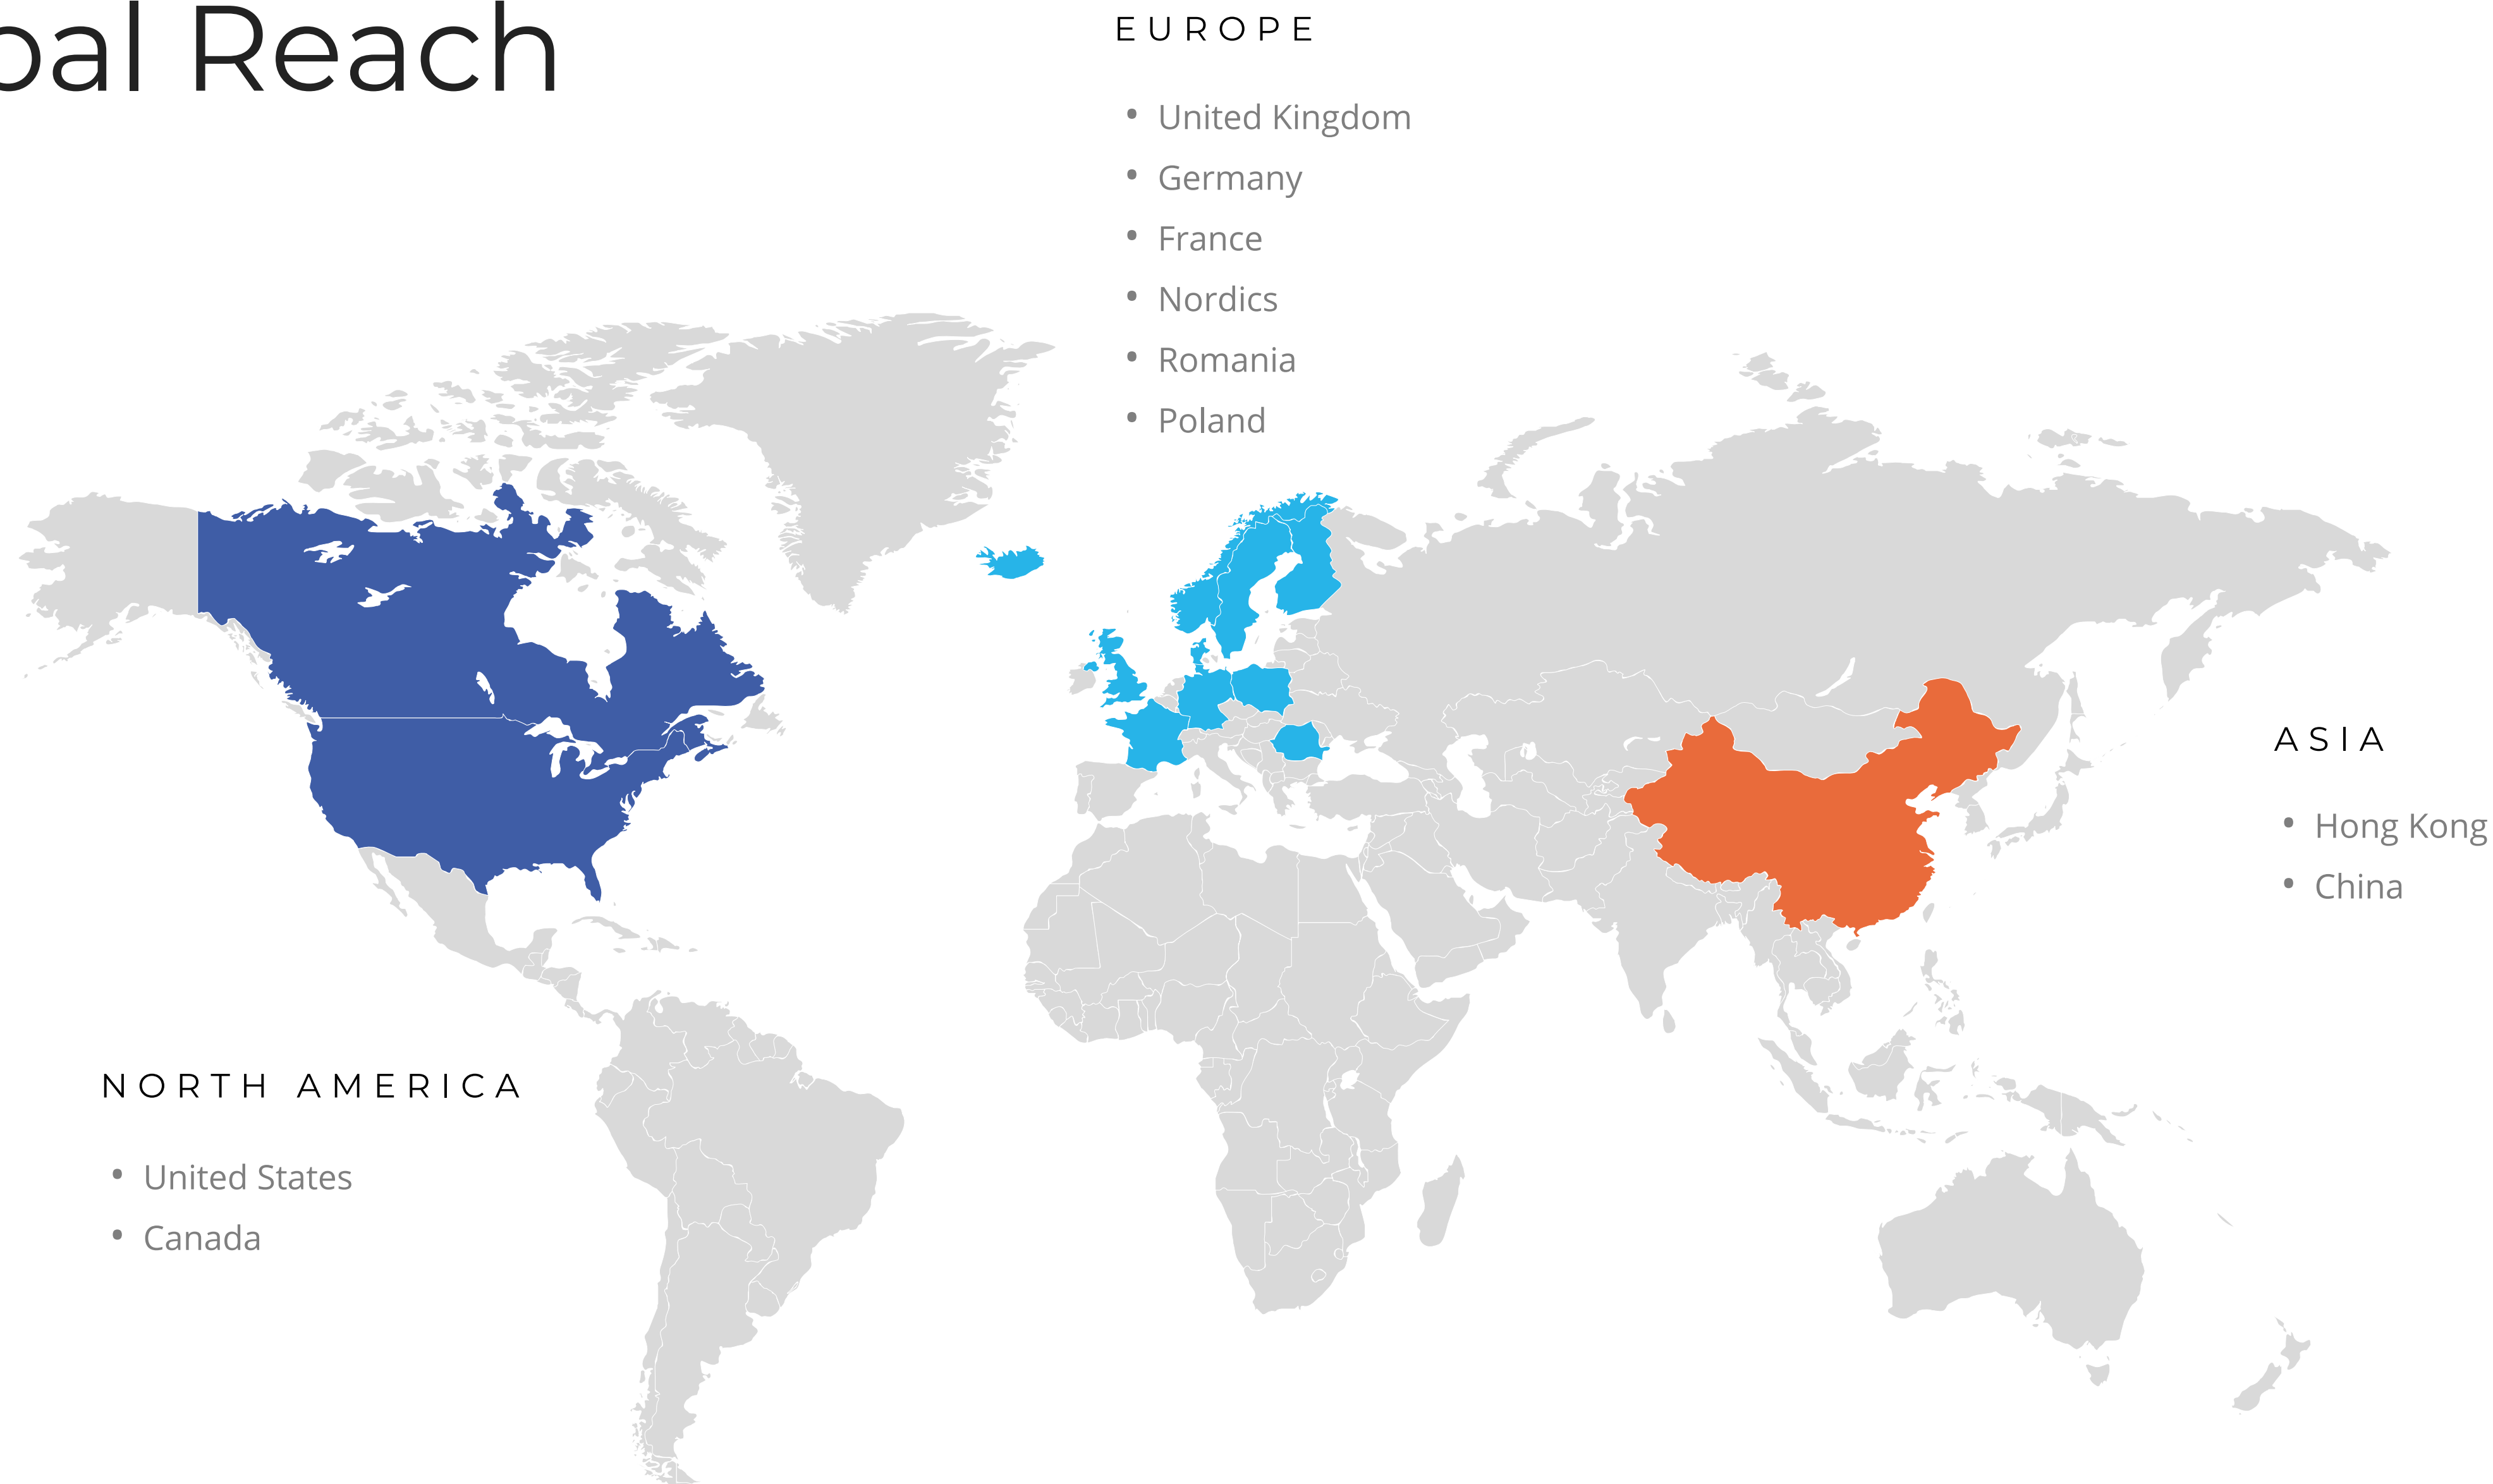

- Salus is a **B2B IoT technology-based** company focus on branded energy efficiency and environmental control products
- Salus is a 100% subsidiary of the **Computime Group**
- Established in 2004, Salus has operations in UK, Germany, US, Canada, Romania, France and Nordic and reaches over 27 countries
- We offer wired and wireless products for, **Hydronic heating System, Force Air System and Smart Home**
