NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

The Company was incorporated as an exempted company with limited liability in the Cayman Islands on 23 June 2006 under the Companies Law, Chapter 22 (Law 3 of 1961 as consolidated and revised) of the Cayman Islands.

The registered office of the Company is located at Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands and the principal place of business is located at 17th Floor, Great Eagle Centre, 23 Harbour Road, Wanchai, Hong Kong.

The Group is principally engaged in research and development, design, manufacture and trading of electronic control products.

2.1 Basis of Presentation

The unaudited interim condensed consolidated financial statements of the Group for the six months ended 30 September 2010 have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (the “Listing Rules”).

Save for the adoption of the new and revised Hong Kong Financial Reporting Standards (“HKFRSs”), which include HKASs and Interpretations, during the Period as set out in note 2.2 below, the accounting policies and basis of preparation adopted in the preparation of the interim financial statements are consistent with those used in the annual financial statements for the year ended 31 March 2010.

2.2 Changes in Accounting Policy and Disclosures

The Group has adopted the following new and revised HKFRSs for the first time for the current period’s consolidated interim financial statements:

HKFRS 1 (Revised)	<i>First-time Adoption of HKFRSs</i>
HKFRS 1 Amendments	<i>Amendments to HKFRS 1 First-time Adoption of HKFRSs – The Additional Exceptions for First-time Adopters</i>
HKFRS 2 Amendments	<i>Amendments to HKFRS 2 Share-based Payment – Group Cash-settled Share-based Payment Transactions</i>
HKFRS 3 (Revised)	<i>Business Combinations</i>
HKAS 27 (Revised)	<i>Consolidated and Separate Financial Statements</i>
HKAS 32 Amendment	<i>Amendment to HKAS 32 Financial Instruments: Presentation – Classification of Rights Issues</i>
HKAS 39 Amendment	<i>Amendment to HKAS 39 Financial Instruments: Recognition and Measurement – Eligible Hedged Items</i>
HK(IFRIC)-Int 17	<i>Distributions of Non-cash Assets to Owners</i>
Amendments to HKFRS 5 included in Improvements to HKFRSs issued in October 2008	<i>Amendments to HKFRS 5 Non-current Assets Held for Sale and Discontinued Operations – Plan to Sell the Controlling Interest in a Subsidiary</i>
HK Interpretation 4 (Revised in December 2009)	<i>Leases – Determination of the Length of Lease Term in respect of Hong Kong Land Leases</i>

Apart from the above, the HKICPA has issued *Improvements to HKFRSs 2009* which sets out amendments to a number of HKFRSs primarily with a view to removing inconsistencies and clarifying wording. The amendments to HKFRS 2, HKAS 38, HK(IFRIC)-Int 9 and HK(IFRIC)-Int 16 are effective for annual periods beginning on or after 1 July 2009 while the amendments to HKFRS 5, HKFRS 8, HKAS 1, HKAS 7, HKAS 17, HKAS 36 and HKAS 39 are effective for annual periods beginning on or after 1 January 2010 although there are separate transitional provisions for each standard or interpretation.

Other than as further explained below regarding the impact of HKFRS 3 (Revised) and HKAS 27 (Revised), the adoption of these new and revised HKFRSs has had no significant financial effect on these consolidated interim financial statements.

The principal effects of adopting these new and revised HKFRSs are as follows:

(a) HKFRS 3 (Revised) *Business Combinations*

HKFRS 3 (Revised) introduces a number of changes in the accounting for business combinations that will impact the amount of goodwill recognized, the reported results in the period that an acquisition occurs, and future reported results. As the Group has not undertaken such transactions during the six months ended 30 September 2010, the adoption of the revised standard has no financial impact on the Group.

(b) HKAS 27 (Revised) *Consolidated and Separate Financial Statements*

HKAS 27 (Revised) requires that a change in the ownership interest of a subsidiary without loss of control is accounted for as an equity transaction. Therefore, such a change will have no impact on goodwill, nor will it give rise to a gain or loss. Furthermore, the revised standard changes the accounting for losses incurred by the subsidiary as well as the loss of control of a subsidiary. Other consequential amendments were made to HKAS 7 *Statement of Cash Flows*, HKAS 12 *Income Taxes*, HKAS 21 *The Effects of Changes in Foreign Exchange Rates*, HKAS 28 *Investments in Associates* and HKAS 31 *Interests in Joint Ventures*. As the Group has not undertaken such transactions during the six months ended 30 September 2010, the adoption of the revised standard has no financial impact on the Group.

2.3 Issued But Not Yet Effective Hong Kong Financial Reporting Standards

The Group has not applied the following new and revised HKFRSs that have been issued but are not yet effective, in these interim condensed consolidated financial statements:

HKFRS 1 Amendments	Amendments to HKFRS 1 <i>First-time Adoption of HKFRSs – Limited Exemption from Comparative HKFRS 7 Disclosures for First-time Adoption</i> ¹
HKFRS 7 Amendments	Amendments to HKFRS 7 <i>Financial Instruments: Disclosures – Transfer of Financial Assets</i> ³
HKFRS 9	<i>Financial Instruments</i> ⁴
HKAS 24 (Revised)	<i>Related Party Disclosures</i> ²
HK(IFRIC)-Int 14 Amendments	Amendments to HK(IFRIC)-Int 14 <i>Prepayments of a Minimum Funding Requirement</i> ²
HK(IFRIC)-Int 19	<i>Extinguishing Financial Liabilities with Equity Instruments</i> ¹

Apart from the above, the HKICPA has issued Improvements to HKFRSs 2010 which sets out a collection of amendments to HKFRSs in response to the International Accounting Standards Board's annual improvements project. The amendments to HKFRS 3 (Revised) are effective for annual periods beginning on or after 1 July 2010 while the amendments to HKFRS 1 (Revised), HKFRS 7, HKAS 1, HKAS 34 and HK(IFRIC)-Int 13 are effective for annual periods beginning on or after 1 January 2011 although there are separate transitional provisions for each standard or interpretation.

¹ Effective for annual periods beginning on or after 1 July 2010

² Effective for annual periods beginning on or after 1 January 2011

³ Effective for annual periods beginning on or after 1 July 2011

⁴ Effective for annual periods beginning on or after 1 January 2013

The Group is in the process of making an assessment of the impact of these new and revised HKFRSs upon initial application. However, it is not yet in a position to state whether they would have a significant impact on the Group's results of operations and financial position.

3. Revenue

Revenue, which is also the Group's turnover, represents the net invoiced value of goods sold, after allowances for returns and trade discounts.

4. Segment Information

The Group's operating businesses are structured and managed separately, according to the nature of their operations and the products and services they provide. Each of the Group's reportable segments represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of the other reportable segments. 8. Dividends

The Board does not recommend the payment of an interim dividend for the six months ended 30 September 2010 (2009: Nil).

9. Earnings Per Share Attributable to Equity Holders of the Company

The calculation of basic earnings per share is based on the profit for the Period attributable to equity holders of the Company of HK\$23,387,000 (six months ended 30 September 2009: HK\$18,263,000) and the weighted average of 830,000,000 (six months ended 30 September 2009: 830,000,000) ordinary shares in issue during the Period.

No adjustment has been made to the basic earnings per share amounts presented for the periods ended 30 September 2010 and 2009 in respect of dilution as the exercise price of the share options of the Company outstanding during the two periods is higher than the average market price of the Company's ordinary shares and accordingly, they have no dilutive effect on the basic earnings per ordinary share.

10. Trade Receivables

The Group's trading terms with its customers are mainly on credit. The credit period granted to customers generally ranges from one to three months.

An aged analysis of the trade receivables as at the reporting date is as follows:

MANAGEMENT DISCUSSION AND ANALYSIS

Summary of Results

The Group's turnover for the Period amounted to HK\$1,232,319,000, increasing by approximately 13.1% over the same period last year. The consolidated net profit attributable to equity holders of the Company was HK\$23,387,000 for the Period compared to HK\$18,263,000 for the six months period ended 30 September 2009. Basic earnings per share for the Period amounted to 2.82 HK cents, compared to 2.20 HK cents in the same period last year.

Financial Highlights

Turnover

Turnover of the Group amounted to HK\$1,232,319,000 for the Period, representing an increase of 13.1% from the same period last year. The increase in turnover was mainly in line with the recovery of major economies around the world and improvement in the overall business environment compared to last year. Accordingly, sales to the Group's major markets, including the Americas and Europe, recorded increases in turnover by 4.4% and 31.9% during the Period, respectively.

Profitability and Margin

Consolidated net profit attributable to equity holders of the Company increased from HK\$18,263,000 for the six months ended 30 September 2009 to HK\$23,387,000 for the Period, representing an increase of 28.1%. The operating environment during the Period presented serious challenges for manufacturers. Raw material prices continued to rise and delivery lead times were extended due to supply shortages worsening as market demand began to recover. Production cost and overhead cost increased due to inflation in Mainland China, appreciation of the Renminbi ("RMB") and increases in labour cost resulting from both labour shortages and the rise of statutory minimum wages in Mainland China. These negatives were only partially offset by increased business volume, the Group's continuation of stringent cost controls and improvements in operational efficiency. Consequently, gross profit margin decreased by 0.3% to 10.8% for the Period. Total operating expenses increased to HK\$121,574,000 from HK\$105,338,000 for the same period last year which was mostly in line with the change in turnover after considering the effect of less favourable exchange gains and increases in the amortization of deferred expenditures resulting from new product launches. The Group recorded a net income tax credit of HK\$8,283,000 during the Period primarily arising from an adjustment of HK\$13,241,000 in previous year's income taxes.

Business Review

Building and Home Controls Business

Sales in the Building and Home Controls business amounted to HK\$471,871,000 during the Period, accounting for approximately 38.3% of the Group's turnover. Sales in this business segment decreased by 8.0% from the prior period mainly due to the soft US housing market resulting in a drop in demand for customer products and deferred sales of certain relatively high margin products. Segment results for the Period decreased with business margin decreasing to approximately 1.0% compared with 1.5% for the same period last year. The decrease mainly resulted from increasing raw material prices and deferred sales of certain relatively high margin products due to the shortage of raw material supplies, appreciation of the RMB and increased labour costs.

Appliance Controls Business

Sales in the Appliance Controls business grew by 39.1% to HK\$587,021,000 during the Period, representing 47.6% of the Group's turnover. The increase was mainly due to the higher sales of controllers to certain appliance customers in both the American and European markets as these customers continued restocking, as well as the successful launch of several new products. The business segment's margin maintained fairly stable at 1.7% for the Period and which was primarily due to continuous efforts in enhancing factory productivity and efficiency brought by increased segment sales.

Commercial and Industrial Controls Business

Commercial and Industrial Controls business segment sales of HK\$173,427,000 were recorded during the Period, representing an increase of approximately 12.1% compared to the same period last year. The increase was mainly attributable to increased demand and the successful launch of certain new products with better margin. This resulted in the improvement in segment margin to 11.5% compared with 10.9% for the same period last year.

Outlook

The global economy has become more stable and has continued to show signs of recovery. Nevertheless, the operating environment for manufacturing sectors remains challenging. Global raw material shortages due to capacity cutting by major suppliers during the downturn have not abated. Moreover, keen competition in the electronic manufacturing service industry business will continue to constrain pricing and margin improvement in the coming months.

The Group will continue to commercialize its sophisticated technology platforms, improve operating efficiency and productivity, and focus on high margin orders. The Group will carefully manage its product price adjustments to pass along increased cost as much as competitive pressures will allow. The Group is proceeding with plans to expand into the growing market in Mainland China to drive its business growth in the coming years.

Liquidity, Financial Resources and Capital Structure

The Group maintained a sound financial and liquidity position in the Period. As at 30 September 2010, the Group maintained a balance of cash and cash equivalents of HK\$593,775,000, the majority of which were denominated either in US dollars or Hong Kong dollars with HK\$161,966,000 denominated in RMB. The Group's current ratio remains strong at 1.9 times.

As at 30 September 2010, total interest-bearing bank and other borrowings were HK\$262,734,000, comprised primarily of bank loans and overdrafts totaling HK\$262,709,000 and finance leases payable of HK\$25,000. Of the total HK\$248,730,000 will be repayable within one year and HK\$14,004,000 will be repayable after one year. The majority of these borrowings were denominated either in US dollars or Hong Kong dollars and the interest rates applied were primarily subject to floating rate terms. The decrease in net cash balances of HK\$105,583,000 was mainly due to an increase in average inventory balances to mitigate material shortages in the supply chain. Other payables and accrued liabilities increased from HK\$135,081,000 at 31 March 2010 to HK\$145,045,000 at 30 September 2010, mainly due to increases in deposits received from customers, accrued commissions payable and accrued wages, which were in line with the increase in turnover and related payment patterns.

At 30 September 2010, total equity attributable to equity holders of the Company amounted to HK\$976,793,000. The Group had a net cash balance of HK\$331,041,000, representing total cash and cash equivalents less total interest-bearing bank and other borrowings such that no gearing ratio applies.

Treasury Policies

The majority of the Group's sales and purchases are denominated in US dollars and Hong Kong dollars with Euro zone currencies comprising a lesser extent. Due to the fact that the Hong Kong dollar is pegged to the US dollar, the Group's exposure to this foreign exchange risk is low. Certain production and operating overhead of the Group's production facilities in Mainland China are denominated in RMB. At 30 September 2010, the Group does not have any outstanding financial instruments entered into for hedging purposes. Nevertheless, the Group will closely monitor its overall foreign exchange exposure and interest rate exposure and will adopt a proactive but prudent approach to minimize the relevant exposures when necessary.

Capital Expenditure and Commitments

During the Period, the Group incurred total capital expenditures of approximately HK\$30,313,000 for the additions to property, plant and equipment as well as for deferred expenditure for the development of new products.

At 30 September 2010, the Group had contracted but not provided for capital commitments, mainly for the acquisition of property, plant and equipment, of HK\$1,891,000.

Contingent Liabilities

A subsidiary of the Company is involved in a dispute with a third party, who is alleging that the subsidiary has infringed on a patent and is seeking value as damages of EURO750,000 (equivalent to approximately HK\$7,965,000). The decision of the relevant district court dated 22 December 2009 was favorable to the subsidiary and the third party has appealed the decision to the relevant higher regional court. Taking into consideration of the advice from the Group's lawyer, the directors believe the subsidiary has valid defenses against the claim and therefore no provision was made as at 30 September 2010. In addition, the subsidiary has initiated legal action against the validity of the patent held by that third party ("Nullity Action") in October 2009 and the directors consider that it is premature to estimate the outcome of the Nullity Action.

Charges on Assets

As at 30 September 2010, no bank deposit and other assets had been pledged to secure the Group's banking facilities.

As at 30 September 2010, the Group had a total of approximately 4,400 full-time employees. Total staff costs for the Period amounted to HK\$109,423,000. The Group provides year-end double pay, discretionary bonus, medical insurance, provident fund, educational subsidy and training to its employees. The Company has also adopted a share option scheme under which the Company can grant options to, inter alia, employees of the Group to subscribe for shares of the Company with a view to rewarding those who have contributed to the Group and encouraging employees to work towards enhancing the value of the Company and its shares for the benefit of the Company and its shareholders as a whole. Up to the date of this announcement, 10,226,000 share options remained outstanding under such share option scheme.

Use of Net Proceeds from the Company's Initial Public Offering

The proceeds from the Company's issue of new shares (including shares issued on the exercise of over-allotment option) for listing on the Stock Exchange in October 2006, after deduction of related expenses, amounted to approximately HK\$469,419,000. The Group intends to apply the net proceeds for the purposes as set out in the section headed "Future Plans and Use of Proceeds" in the prospectus of the Company dated 25 September 2006. As at 30 September 2010, approximately HK\$106,250,000 were utilized for strategic business combination and acquisitions, approximately HK\$20,950,000 for the expansion of the distribution network, approximately HK\$44,176,000 for the repayment of bank borrowings and approximately HK\$44,176,000 for general corporate purposes, and the remaining balance of the net proceeds was placed in certain financial institutions and licensed banks in Hong Kong as short-term deposits.
